<u>**Overview:**</u>

████████████, MBA, MCSD, SAP Certified is a recognized expert in SAP Technical Project Management including data migration, development, enterprise application integration (EAI), and infrastructure. His background spans nearly 20 years of SAP technical consulting and over 10 years of technical project management, for various large enterprises and governmental organizations, across nearly every industry vertical, and 33 years total IT.

He was qualified as an expert witness in the Siemens v. Sapient case in Ontario Superior Court, and his testimony was credited with a successful win for the client.

<u>**Expert Witness Experience:**</u>
ONTARIO SUPERIOR COURT - Legal - Toronto, Canada - 2011-2016
SAP Data Conversion Auditor and Legal Expert Witness

- Successfully concluded a multi-year auditing and legal expert witness engagement, reviewing thousands of project artifacts including source code, specifications, test results, etc.; producing several hundreds of pages of reports; and attending trial as amicus curiae and qualified expert to explain my findings and give testimony on SAP, project management, and data conversion best practices pertaining to a dispute between two large multinational companies
- Developed tools in Microsoft Access to automatically evaluate SAP source code and rank ABAP and IS-U objects for types of issues pertinent to the case
- Client ultimately won a settlement in the tens of millions of dollars, and cited the quality, technical content, preparation, and delivery of my testimony as the key contribution that enabled their win

<u>**Professional Summary:**</u>
