

Company Profile

Ivey Engineering, Inc. is an HVAC, plumbing, process piping, fire sprinkler and energy management consulting firm. The firm primarily performs design and expert witness consulting relating to construction, products, injuries and causality losses. The staff is comprised of professional engineers and former construction executives. We are licensed engineers and licensed contractors and have performed consulting work in over 30 states. Our clients include contractors, homeowner associations, commercial building owners, tenants, hotels, casinos, design professionals, manufacturers, law firms, insurance companies and individuals. We know what it takes to design, bid and construct projects.

IEI was founded in 1994 in San Diego, California. We have offices in San Diego; Clearwater Florida; and Richmond, Virginia and provide consulting and expert witness services nationwide. Each of our engineers are licensed as professional engineers in multiple states. These licenses cover approximately 40 states.

Since 1994 we have completed approximately 1,500 engagements involving construction defects, construction claims, construction cost, building system condition, HVAC and plumbing design, building system failure, causality loss, professional liability, product liability, personal injury and HVAC systems for indoor cultivation facilities.
