RE: Application for *Qualified Elevator Consultant* designation

Dear Mr. Fagan:

Congratulations! You have been approved by the QEC committee as one of the first QEC's in the world. We currently have approved six consultants in the United States, one consultant in Canada and one consultant in India.

The path to accomplishing the designation demands your time, your resources and your talents to be contributed back into our industry in many ways. I applaud the devotion and attention you have sacrificed to stay current and relevant in a fast moving industry.

Please accept this letter as authorization to use the designation. Please remember you will renew every three years. You will be required to renew information through the committee by July 1, 2012 for continued enrollment. Please keep records of your industry activities as this is an important part of the requirements.

Also, NAVTP will be acknowledging our new QEC's at the Award's Breakfast during United in Orlando (September). Please advise me if you will be attending. My email is ss@swettcorp.com.

Much congratulations again,

Sheila N. Swett
QEC Committee Chair
