## Professional Experience

### **Newport News Nuclear – BWXT Los Alamos, LLC, Los Alamos, New Mexico**

Environmental compliance for company's RCRA and solid waste requirements as well as consent order remediation, based on RCRA Corrective Action.

### **Los Alamos National Laboratory, Los Alamos, New Mexico**

Waste Management Coordinator for hazardous, non-hazardous, and low level radiological wastes. Regulatory compliance applications of RCRA and New Mexico Environment Department regulations.

### **State of New Mexico, Environment Department, Hazardous Waste Bureau, Santa Fe, New Mexico**

RCRA hazardous waste permit manager for commercial TSDFs facilities. Responsibilities included

- Technical and regulatory review of RCRA Part A and Part B permit applications;
- RCRA permit development, review, and compliance inspections for TSDFs;
- RCRA regulatory interpretation and analysis;
- Public meeting support

### **Devon Energy, Artesia, NM**

Environmental compliance manager for company's State of New Mexico oil and gas production. Worked closely with New Mexico Oil Conservation District offices and Bureau of Land Management to achieve and maintain environmental compliance.

- Air, water, hazardous and solid waste compliance for New Mexico office (CAA, CWA, RCRA);
- Oversight and review of monitoring, spill cleanup, and SPCC development;
- Developed procedures for consistent responses to in field production spills;
- Soil cleanup and groundwater protection;
- Management and oversight of contractors;
- Conducted policy roll out and strategic gap analyses;
- Conducted monthly environmental training for audiences of 20-100+

### **Ridolfi, Inc., Seattle, WA**

Technical consultant for environmental site cleanup, solid and hazardous waste management, environmental policy, environmental compliance, and engineering. Clients were Native American Tribes in Alaska and Western United States. Responsibilities included

- Provided regulatory oversight and assessment of environmental site investigations and cleanups on former federal sites DoD, DoE under NALEMP, FUDS, and TRP;
- Developed project proposals, budget estimates, work plan estimates, and assisted with bid development;
- Developed Storm Water Pollution Prevention Plans, Strategic Project Implementation Plans, Vapor Intrusion Plans, and Sampling/Quality Assurance Project Plans;
- Analyzed waste-to-energy technologies and developed cost benefit analyses for clients;
- Developed and presented of Tribal Solid Waste Workshops under contract for US EPA Region 9

### **Washington State Department of Ecology, Olympia, WA**

Sediment management responsibilities, including Puget Sound Initiative sediment environmental site investigation and cleanup support

- Supported regulatory oversight, review of permits, environmental site investigation and cleanup activities;
- Ecology Sediments Cleanup Lead for DoD Puget Sound Naval Shipyard;

Sediment source control investigation, analysis, and support; groundwater implications and recontamination issues;  
Hazardous waste and toxic waste sediment cleanup support under state MTCA (CERCLA equivalent);  
Developed sediment cleanup guidance for Ecology's Puget Sound Initiative;  
Managed \$200,000 in interagency agreements with US Fish and Wildlife and NOAA for Natural Resource Damage;  
Assessment (NRDA) and Endangered Species Act (ESA) requirements

Hazardous Waste and Toxics Reduction Program responsibilities included providing technical and regulatory analysis and interpretation to the agency and the public

RCRA Hazardous waste permit manager and inspections (DoD and commercial TSD facilities);  
Regulatory oversight and review, assessment of DoD, commercial, and industrial facility permits, TSD inspections for DoD, commercial, and industrial facilities, review and analysis of permit applications and corrective action documents for technical adequacy and viability;  
Developed numerous agency RCRA-based hazardous waste publications and developed streamlined Corrective Action Permit;  
RCRA Hazardous Waste Public Involvement Coordinator, Corrective Action, and SEPA; prepared public involvement documents and meetings;  
Created and managed a Public Involvement Communications Team;  
Consulted with state, federal, and military agencies (DoD), private industry, port authorities, and local governments

Water Quality Program responsibilities included

Consulted and trained Water Quality regional offices on use and interpretation of whole effluent toxicity testing, a requirement of the Clean Water Act (CWA) for National Pollutant Discharge Elimination System (NPDES) permits;  
Established a biological testing database and evaluated biological testing data;  
Defined minimum quality assurance and quality control requirements for biological testing

## Education

### TEXAS TECH UNIVERSITY

Graduate Studies in Environmental Toxicology

### OKLAHOMA STATE UNIVERSITY

Master of Science in Environmental Engineering

Bachelor of Science in Zoology
