Professional: Dr. Sawyer has provided forensic toxicology consulting services and expert testimony for more than 29 years. A diplomate of the American Board of Forensic Medicine, Dr. Sawyer has extensive experience with review and assessment of numerous insurance claims, governmental public health matters and forensic toxicology specializing in causation analyses (defendant or plaintiff, criminal prosecution and defense), medical malpractice matters involving opiates, pharmaceuticals, polypharmacology, narcotics and other common pharmaceuticals. Dr. Sawyer also conducts exposure evaluations involving dioxins, solvents, heavy metals, crude oil, alcohol, drugs-of-abuse, pharmaceuticals, herbal products, radionuclides/NORM and many other substances. Dr. Sawyer routinely provides impartial toxicological evaluations involving chemical exposures, carcinogens, pyrolysis products, heavy metals, organic chemicals, intentional poisonings, alcohol ingestion, pharmaceutical overdoses and drugs-of-abuse in civil and criminal litigation. Clients include insurance carriers, corporations, governmental agencies and US Attorney offices (approximately 41% defendants, 59% plaintiffs respectively).

References: Available from highly prestigious U.S. insurance carrier attorneys, defense and plaintiff law firms and governmental agency attorneys.

Comments: Reasonable flat fee rate for out-of-state depositions/proceedings.
