Dear Legal Team:

Currently, I am VetPro certified for government contracts as well as available to perform my duties in the civilian sector. I am interested in exploring the opportunity of joining your organization as a certified registered nurse anesthetist (CRNA) in a Legal Nurse Consultant (LNC), an Expert Witness, and Medical Research capacity. I have enjoyed the challenges at numerous outstanding facilities. I am experienced in numerous clinical settings as well as trained with several Anesthesia Health Informatics systems, including EPIC and Cerner. I can contribute to your organization. I have enclosed a resume for your review and evaluation.

In August 1996, I received a Master in Nurse Anesthesia degree with extensive didactic and clinical experience from the University of Alabama at Birmingham Graduate School. I am knowledgeable in anatomy, physiology, pathophysiology, chemistry, physics, biochemistry, and pharmacology as they relate to anesthesia. I have over 25 years of experience as a CRNA clinical practitioner. I am competent with a variety of anesthetic agents and techniques for numerous types of surgical and obstetrical procedures, both general and regional anesthesia, IV sedation, and monitored anesthesia care. I look forward to extending my anesthesia clinical experience as a consultant and an expert witness for cases related to (but not limited to) the following procedures: General, Ophthalmologic, Otolaryngologic, Oral and Dental, Vascular, Thoracic, Cardiovascular, Plastic/Reconstructive, Neurological, Orthopedic, Podiatric, Urologic, Gastroenterological, Gynecologic, Obstetric, and Pediatric. My pursuit and 5 core values are the following:

Professionalism - good character; integrity; competent, dedicated professional in all I do
Accountability – responsible, accountable, and reliable
Compassion – committed; compassionate; collaborate with others; caring about and for others
Excellence – spirit of excellence and practice of excellence to improve outcome measures
Duty – honoring my call-to-duty with honesty, dignity, agility, and loyalty; teamwork

I possess skills necessary to deliver anesthesia care to patients of all ages, including infant, pediatric, adolescent, adult, and geriatric population. With several years of highly responsible clinical experience in numerous critical care capacities, level 1 trauma facilities, and excellent training in nurse anesthesia, I can contribute to your organization. I can be contacted as indicated above. Thank you for your interest and reply.

Sincerely,

Adrine S. Adams, MNA, CRNA, DHA, COL (Ret, USAR)

***PROFESSIONAL
CAREER GOALS:***

A successful CRNA of multiple facilities with a solid background of clinical experience and whose proven abilities have led to providing total anesthesia care to a wide variety of patients in all clinical specialty areas. With these credentials of extensive experience, I pursue an advanced career in the legal industry as a nurse anesthesia consultant, an expert witness, and medical researcher.
