

Dear Experts.com,

I needed an expert witness in employment law - age discrimination to be exact - for my federal law case. I searched for several days on the Internet. I finally found the website www.Experts.com and I did a search and found Dr. Linnda Durre', who was the answer to my prayers.

She has proven to be very intelligent, knowledgeable, dependable, clever, full of excellent suggestions to both me and my attorney, and her fees were reasonable and affordable. Her written report to the court was powerful and her responses to opposing counsel's objections were solid. She is strong, fearless, and nice, as well as a great adviser and strategist. I have enjoyed working with her. My wife and I felt so relieved when she came aboard my legal team.

Dr. Durre's credentials are impressive - her resume is 25 pages long. She has also been a psychotherapist for 41 years in private practice, and it will be 42 years in July 2020. She has written two books, and both are on Amazon. Her second book is "Surviving the Toxic Workplace" published by McGraw Hill.

Dr. Durre' was vetted by the Mayo Clinic; she has been an expert witness for 44 years and she has been qualified as an expert in six states. Her recommendation letters tell you how much she cares about her clients, her commitment, dedication, hard work, and understanding her cases and her clients.

She has appeared on Oprah, 60 Minutes, O'Reilly, CNN, ABC, NBC, CBS, Fox, CBS, CW, The Daily Buzz, NPR, and PBS; and she hosted two TV call-in advice shows and two radio call-in advice shows, just to name a few things she has done.

After several days of searching, I came up a winner! Even my attorney thinks I did a great job in finding Dr. Durre' and it saved me a lot of money by doing it myself, instead of paying one of his assistants or paralegals for doing the research.

That's how easy it is to use the Experts.com website and that's why I highly recommend www.Experts.com if anyone is looking for a well-qualified expert witness and/or consultant in any area. Their website is easy to use, they pre-qualify their experts, and list their recommendation letters, resumes, CVs, publications, media appearances, and materials.

Dr. Linnda Durré' has been working with me and my attorney for almost five months now. I'm very grateful to www.Experts.com for letting me find a top, internationally known expert, who has helped me so much with my case.
