Work Accomplishments

- Analyzed loss and loss adjustment expense reserves for regulatory authorities, insurance companies, self-funded non-insurance entities (WC + GL), including a multi-billion, domestic and international, direct and reinsured (inward and outward) book of both traditional and special risks.
- Supported regulatory authorities in numerous solvency-related matters.
- Toured a U.S.-based deep coal mine, following the successful completion of federally mandated safety training, to support a WC loss reserving client's risk management efforts.
- Provided extensive and successful expert witness testimony on actuarial matters.
- Supported the Federal Bureau of Investigation and the Office of the United States Attorney in their successful prosecution of several insurance executives.
- Managed and directed data hygiene efforts in numerous forensic matters.
- Interviewed by John Camp (CNN) for a news special on medical malpractice insurer, Physicians National Risk Retention Group.
- Managed and/or supported the design, testing, and implementation of insurance systems.
- Managed and/or supported the development of user requirements and functional specifications for insurance systems.
- Co-developed patented models designed to prevent e-commerce fraud and authenticate identities to support commercial and public security initiatives.
- Designed and directed the development of a software utility that supports the actuarial evaluation of changes in a claims administration environment (CPR™).
- Evaluated reinsurance programs for insurance companies and regulatory authorities.
- Performed rate filing reviews for regulatory authorities.
- Spoke at seminars on issues related to loss and loss adjustment expense reserving.
- Evaluated rehabilitation plans for regulatory authorities.
- Assisted the management of self-funded non-insurance entities in their development of loss control strategies and programs.
- Performed valuations of insurance entities for acquisitions and mergers.
- Designed and built mortgage insurance financial and actuarial models.
- Developed insurance products and underwriting models and guidelines.
